Week #2

Did you know that you can mix yellow, red, and blue to make 3 new colours? By mixing these colours in different ways, we can make orange, green, and purple. Let's try it!

Step 1. Using your paintbrush, put a dab of yellow paint on your paint tray.
Tip: Your dab should be the size of a quarter.

Step 2. Rinse your paintbrush in the cup of water by wiggling it back and forth until it's clean. You shouldn't see any paint left on the brush.

Step 3. Now dry the paintbrush by dabbing it on a paper towel or cloth.

Step 4. Repeat these steps with the red paint and blue paint.

Now it's time to mix new colours!

Orange: Using your paintbrush, take a bit of red and yellow paint and mix them together. Keep mixing! It's now orange! Paint this shoe orange.

Week #2

Green: Using your paintbrush, take a bit of yellow and blue paint and mix them together. Mix, mix, mix! It's now green! Paint this shoe green.

Purple: Using your paintbrush, take a bit of blue and red paint and mix them together. Swish, swoosh, mix! It's now purple! Paint this shoe purple.

Week #2

What happens when you mix all of the colours together? Let's try it and paint this shoe too!
