

Instructions for Origami Slippers

Tip: Follow the arrows for the direction of your fold. For best results, make sure you crease all folds well with your fingernail.

*The dotted line is where you fold. - - - - -

1. Take a rectangular piece of paper approximately 30cm x 45cm (12" x 18"). Or you can tape two pieces of paper together instead. Bring the top edge of the paper downward to about 5cm (2") from the bottom edge and fold it.

2. Take the bottom edge of the piece you just folded upwards to meet the fold you just made. Make a crease. This makes the toe of the slipper.

Meet edge of paper with your first fold.
